PROFILE

I'm a Senior Frontend developer who prioritizes application security, optimization, user experience along with a firm understanding of backend architecture. My proficiency spans across the following stacks; **React**, **React Native**, **NextJS**, **Angular**, **VueJS**, **NodeJS**, **ExpressJS**, **Handlebars, EmberJS, JavaScript**, **TypeScript**, and many more. With the experience gathered using these technologies, I've been able to build several applications with them. I will contribute immensely through collaboration and hard work, to get the job done.

EXPERIENCE

Seamless HR — *Lead Tech developer*
July 21, 2021 - Present

Project Name: SeamlessHRMS

Description:
SeamlessHRMS is a Human Resources Management System Mobile application built to cater to Human Resources requirements ranging from Leave Applications, Loan, Requisitions, Approvals, Time & Attendance, Payroll and many more..
